11th Edition Catalog

Highflying Banners

A Division of Rainier Industries, Ltd.

Why choose Highflying Banners?

Unique, handcrafted look. Highflying Banners are a blend of art and craft. Consider these designs a jumping-off point: we invite you to change colors or patterns to suit your needs.

Fast way to dress up properties. Applique banners are a fast way to improve the first impression visitors have of your site.

Cost efficient -- buy only what you need. Because everything is made to order, you can get exactly what you want -- color, theme and size. There is no minimum order.

Durable quality. Applique Highflying Banners are made with the best quality materials and findings. We use Sunbrella fabrics which are solution-dyed acrylic fabrics. This means the color is put in before the fabric is woven, resulting in vibrant, fade-resistant banners. They are warranted, under normal conditions, for three years.

Weather resistant. Our Alaska customers buy Sunbrella banners because they can withstand severe weather conditions, as well as high winds. Arizona, California and South American customers buy them because the colors hold up well in sunny, hot conditions.

Broad capabilities give an infinite variety of customizations.

Highflying Banners features Sunbrella fabrics.

Imprinting Your Banners

The Sunbrella Graphics System (SGS) allows you to add vinyl graphics to Sunbrella fabric. Each imprint can be different and unique without incurring excessive set up charges.

Printing on Sunbrella is an alternative when you have ten banners or more that will each have the same graphics. We can work from your artwork or if you prefer, our design team can create an image or message that is tailored for your specific need.

Custom Banners

Let us create custom banners for you. You provide the input and ideas from electronic files, sketches, artwork or a logo and our design team will create banner images that portray your unique style and image. While most of our applique banners are made with Sunbrella fabrics, we also offer other fabrics and manufacturing techniques for both interior and exterior use.

Visit the photo gallery of our web site: www.HighflyingBanners.com. Check out banner projects that have been a success for our clients.

Highflying Banners

A Division of Rainier Industries

About Highflying Banners

Since 1975, Highflying Banners has delivered beautiful, handcrafted appliqué banners to shopping centers, municipalities, museums, zoos and many other organizations and individuals. In 2002, the company became a division of Rainier Industries. Today, the entire staff of Highflying Banners continues to fabricate these durable and attractive banners at Rainier's facility, located in Seattle, Washington. We continue our mission to deliver outstanding banners, award-winning designs and exceptional customer service.
